

CURRICULUM VITAE

YAAKOV MALINOVSKY

May 3, 2020

University of Maryland, Baltimore County
Department of Mathematics and Statistics
1000 Hilltop Circle
Baltimore, MD 21250

Email: yaakovm@umbc.edu
Homepage: <http://www.math.umbc.edu/yaakovm>
Cell. No.: 240-535-1622

Education:

Ph.D. 2009 The Hebrew University of Jerusalem, Israel Statistics
M.A. 2002 The Hebrew University of Jerusalem, Israel Statistics with Operation
Research
B.A. 1999 The Hebrew University of Jerusalem, Israel Statistics (Summa Cum Laude)

Experience in Higher Education:

From July 1, 2017, University of Maryland, Baltimore County, Associate Professor,
Mathematics and Statistics.

Fall 2011 – 2017, University of Maryland, Baltimore County, Assistant Professor,
Mathematics and Statistics.

September 2009 – August 2011, NICHD, Visiting Fellow.

Spring 2003 – Spring 2007, The Hebrew University in Jerusalem, Instructor, Statistics.

2000–2004, The Open University, Israel, Instructor, Mathematics and Computer Science.

Scholarships & Awards:

2014 IMS Meeting of New Researchers Travel award

2010 IMS Meeting of New Researchers Travel award

2003 Hebrew University Yochi Wax prize for PhD student

2001 Hebrew University Rector fellowship

1996 Hebrew University Dean's award

1995 Hebrew University Dean's list

Academic visiting:

Biostatistics Research Branch NIAID (June-August 2015), La Sapienza Rome Department
of Mathematics (January 2018), Alfréd Rényi Institute of Mathematics Budapest (June
2018), Biostatistics Branch NCI (August 2017, August 2018, August 2019), Haifa University
Department of Statistics (October 2018 - January 2019).

Ph.D. Students:

Maria Barouti, defended May 2016 (co-advised)

Current position: Professorial Lecturer, Mathematics & Statistics, American University

Gregory Haber, defended May 2018 (adviser)

Current position: Postdoctoral Fellow, Biostatistics Branch , NCI

Ph.D. committees:

Michelle Danaher, defended Fall 2012(reader),

Andrew Raim, defended Spring 2014 (reader),

Zachary Zimmer, defended Spring 2014 (member),

Nilabja Guha, defended Summer 2014 (member),

Jian Zhao, defended Fall 2016 (member),

Ye Yang, defended Fall 2016 (member),

John Zylstra, defended Spring 2018 (reader),

Yun-Ju Cheng, defended Fall 2018 (member).

Publications:

Peer-Reviewed:

International Conference on Machine Learning (MLDM2014), July 21-24, 2014, St. Petersburg, Russia. SpringerVerlag Lecture Notes in Computer Science, Lecture Notes in Artificial Intelligence (LNAI), 149–162.

Referred Book Chapters:

30. Barouti, M., Keren, D., Kogan, J. and Malinovsky, Y. Clustering for Monitoring Distributed Data Streams, in *Partitional Clustering Algorithms*, M. Emre Celebi (eds.), Springer, 385–413, 2015.

Non-Peer-Reviewed:

31. Malinovsky, Y. and Rinott, Y. Best Invariant and Minimax Estimation of Quantiles in Finite Population, Center for Rationality. The Hebrew University of Jerusalem. Discussion paper 553, 2010.
32. Malinovsky, Y. Book Review. Statistics in the Health Sciences: Theory, Applications, and Computing., *Biometrics*, 75, 356, 2019.
33. Malinovsky, Y. Follow Up on Detecting Deficiencies: An Optimal Group Testing. *Mathematics Magazine* 92, 398, 2019.

Works Submitted:

34. Malinovsky, Y. Conjectures on Optimal Nested Generalized Group Testing Algorithm (available in my web page).
35. Best, A., Malinovsky, Y., Albert, P. The efficient design of nested group testing algorithms for disease identification in clustered data.
36. Haber, G., Malinovsky, Y., Albert, P. Is Group Testing Ready for Prime-time in Disease Identification? (available in my web page).

Presentations:

1. “A Unified Approach for Solving Sequential Selection Problems” (Invited talk), *Rutgers Business School*, October 10, 2019.
2. “A Unified Approach for Solving Sequential Selection Problems” (Invited talk), The Seventh International Workshop in Sequential Methodologies, *The Department of Mathematical Sciences, Binghamton University*, June 20, 2019.
3. “A Sequential Stochastic Assignment Problem with Random Number of Jobs” (Invited talk), The 36th Annual Quality and Productivity Research Conference, *American University*, June 11, 2019.
4. “Group Testing: Some Results and Open Problems”, *Department of Statistics, The Hebrew University of Jerusalem, Israel*, November 5, 2018.
5. “Group Testing: Some Results and Open Problems”, *Department of Statistics, University of Haifa, Israel*, October 31, 2018.
6. “Generalized Group Testing: Some Results and Open Problems”, *Department of Mathematics, UMCP*, September 20, 2018.
7. “Conjectures on Optimal Nested Generalized Group Testing Algorithm”, 2nd Russian-Hungarian Combinatorial Workshop, Alfréd Rényi Institute of Mathematics, Budapest, Hungary, June 28, 2018.
8. “Generalized Group Testing: Some Results and Open Problems” (Invited talk), International Workshop on Applied Probability, Budapest, Hungary, June 20, 2018.
9. “Revisiting Group Testing Procedures”, *Department of Mathematics & Statistics, American University*, March 20, 2018.
10. “Revisiting Group Testing Procedures”, *Department of Statistics, George Mason University*, February 23, 2018.
11. “Nested Group Testing Procedures and Generalized GT Problem”, *Biostatistics Department, University of North Carolina at Chapel Hill*, September 28, 2017.
12. “Nested Group Testing Procedures and Generalized GT Problem”, *IBM Thomas J. Watson Research Center*, August 18, 2017.

13. “Nested Group Testing Procedures and Generalized GT Problem”, *Biostatistics Branch, Division of Cancer Epidemiology and Genetics, NCI*, August 7, 2017.
14. “Sterrett Procedure for the Generalized Group Testing Problem”, *INFORMS Applied Probability Society Conference 2017, Kellogg School of Management and the McCormick School of Engineering*, July 11, 2017.
15. “Sequential Estimation in the Group Testing”, *The 34th Quality and Productivity Research Conference, Department of Statistics, University of Connecticut*, June 13, 2017.
16. “Nested Group Testing Procedures”, *Department of Statistics & Operations Research, Tel Aviv University, Israel*, January 10, 2017.
17. “Nested Group Testing Procedures”, *National Heart, Lung and Blood Institute, NIH*, December 13, 2016.
18. “Revisiting Nested Group Testing Procedures: New Results, Comparisons, Robustness” (Invited talk), *Latent Variables Conference, The University of South Carolina*, October 14, 2016.
19. “Revisiting Nested Group Testing Procedures: New Results, Comparisons, Robustness” (Invited talk), *International Workshop on Applied Probability, Toronto, Canada*, June 21, 2016.
20. “On the structure of UMVUEs” (Invited talk), *The 2nd Russian-Indian Joint Conference in Statistics and Probability, Saint-Petersburg, Russia*, 31 May, 2016.
21. “Some Challenging Problems in Group Testing”, *Department of Biostatistics, University at Buffalo*, March 31, 2016.
22. “Evaluation of Group Testing Algorithms in the Presence of Misclassification”, *JSM, Seattle, Washington*, August 11, 2015.
23. “Some Challenging Problems in Group Testing”, *Biostatistics Branch, NIAID*, April 22, 2015.
24. “Some Challenging Problems in Group Testing”, *Department of Statistics, George Mason University*, March 20, 2015.
25. “Minimax Solution for the Two-Stage Group Testing Problem” (Travel Award), *16th Annual IMS Meeting of New Researchers in Statistics and Probability, Harvard University*, July 31-August 2, 2014.
26. “Minimax Solution for the Two-Stage Group Testing Problem”, *JSM, Boston, Massachusetts*, August 6, 2014.

27. “Invariant and Minimax Strategies for Quantiles Estimation in Sampling from Finite Population (poster)” (NSF Registration Award), *Frontiers of Hierarchical Modeling in Observational Studies, Complex Surveys and Big Data: A Conference Honoring Professor Malay Ghosh*, College Park, Maryland, May 28-31, 2014.
28. “Invariant and Minimax Strategies for Quantiles Estimation in Sampling from Finite Population”, *Ordered Data Analysis, Models and Health Research Methods: An International Conference in Honor of H.N. Nagaraja for His 60th Birthday*. UT Dallas, March 7, 2014.
29. “On the Nile Problem by Sir Ronald Fisher”, *Math Colloquium*, Lehigh University, December 4, 2013.
30. “On the Nile Problem by Sir Ronald Fisher”, *JSM*, Montréal, Québec, Canada , August 8, 2013.
31. “Some Open Problems in Mathematical Statistics: Existence of UMVUE’s” (Invited talk), *Fourth International Workshop in Sequential Methodologies*, Athens, Georgia, July 19, 2013.
32. “On the Nile problem by Ronald Fisher”, *Department of Mathematics, UMCP*, October 25, 2010.
33. “Monotonicity in the Sample Size of the Length of Classical Confidence Intervals”, *JSM*, San Diego, August 2, 2012.
34. “Pooling Designs for Outcomes Under a Gaussian Random Effects Model” (Invited talk), *ENAR*, Washington DC, April 3, 2012.
35. “Prediction of Ordered Random Effects in a Simple Small Area Model, and Related Problems”, *Center for Statistical Research & Methodology, Bureau of the Census*, Washington DC, March 8, 2012.
36. “Monotonicity in the Sample Size of the Length of Classical Confidence Intervals”, *Department of Mathematics, UMCP*, February 9, 2012.
37. “Prediction of Ordered Random Effects in a Simple Small Area Model”, *Department of Mathematics and Statistics, UMBC*, September 30, 2011.
38. “Pooling designs for outcome under Gaussian random effects model”, *Department of Statistics, GWU*, February 11, 2011. The George Washington University. Department of Statistics. February, 2011.
39. “Invariant and minimax strategies for quantiles estimation in sampling from finite population (poster)” (Travel Award), *Borrowing Strength Theory Powering Applications workshop in honor of Larry Brown’s 70th Birthday*, “Wharton School of the University of Pennsylvania”, Philadelphia, PA, December, 2010.

40. “Invariant and minimax strategies for quantiles estimation in sampling from finite population” and “Pooling designs for outcome under Gaussian random effects model”, *Department of Mathematics and Statistics, UMBC*, December 13, 2010.
41. “Best invariant and minimax nonparametric estimation of quantiles in finite population” (Travel Award), 13-th Annual IMS Meeting of New Researchers in Statistics and Probability, Vancouver, Canada, July 27, 2010.
42. “Pooling Strategies for Outcome Under a Gaussian Random Effects Model”, American Chemistry Council meeting, NICHD, May 20, 2010.
43. “Prediction of Ordered Random Effects in a Simple Small Area Model”, *Department of Mathematics, UMCP*, May 6, 2010.
44. “Pooling Strategies for Outcome Under a Gaussian Random Effects Model”, ENAR, New Orleans, March 22, 2010.
45. “Prediction of Ordered Random Effects in a Simple Small Area Model”, SSC and SFdF Conference, Ottawa, Canada, May 28, 2008.

Service:

Departmental Service:

Member, Statistics Graduate Program Committee, Fall 2017-present.

Member, Basic Probability Comprehensive Exam Committee, Fall 2012 - present.

Member, Basic Mathematical Statistics Comprehensive Exam Committee, Spring 2013 - present.

Organizer, weekly Statistics Colloquium, Spring 2012, Fall 2013, Spring 2013, Spring 2016, Fall 2016, Spring 2017.

Member, Workload committee, Fall 2012, Spring 2013.

College, University and Community Service:

Judge, Graduate Student Day, Spring 2012.

Organizing committee of the Statistics and Probability day conference, 2012-2018.

Service to the Profession:

Associate Editor, *The American Statistician*, August 2017-present

Associate Editor, *Journal of Applied Statistics*, February 2017-March 2019

Referee for papers in the following journals:

ANZJS, Bernoulli, Biometrics, Biostatistics, Communications in Statistics: Theory and Methods, Computational Statistics & Data Analysis, European Journal of Operational Research, Journal of Applied Statistics, Journal of Statistical Planning and Inference, Journal of the Royal Statistical Society: Series A and Series C, Mathematical Reviews, Metrika, Metron, Operations Research, REVSTAT, Sankhya A, South African Journal of Statistics, Statistics and Probability Letters, Statistics in Medicine.

Referee for Grant Proposal:

The Army Research Office (2014)

NSF (2016)

Reviewer, NSF DMS Review Panel, January 2017

Membership:

Institute of Mathematical Statistics

INFORMS
